

BOMBER 2024

About

At the end of 2019, Bomber entered the market of work and protective equipment, offering products with high added value that meet high requirements and criteria. After this, Bomber added hand tools for professionals and amateurs to its range, which offers a perfect ratio of quality and price, with an emphasis on quality.

To ensure high strength and durability, Bomber tools are made from the best, carefully selected materials. Our products go through a series of tests and external controls before they are put on sale, which guarantees customers safety. Bomber is constantly expanding, so that in addition to the above mentioned items, today the range also includes handcarts, binders, mats and tarpaulins.

Watering Garden

Efficiently watering your garden or lawn is crucial for maintaining healthy, vibrant greenery. Watering hoses and sprinklers serve as indispensable tools, offering convenience and precision in delivering the right amount of water to plants and grass.

Whether it's a flexible hose for targeted watering or a strategically placed sprinkler system for broader coverage, these devices play a vital role in nurturing your outdoor space, ensuring optimal growth and vitality.
